

CONTEST OF CHAMPIONS

TASK #7: RECORD A VIDEO

Purpose:	Use organizational, acting, graphics, and computer skills to create a video about everything you have done so far for the Contest of Champions.
Steps:	<ul style="list-style-type: none">• Create a storyboard to plan out the sequence of your video.• Write a script• Decide where to best place the camera.• Think about how you will provide adequate light.• Think about how you can eliminate extra sounds from the background and ensure the presenter's voice can be clearly heard.• Record your video.
Tips:	<ul style="list-style-type: none">• Everyone needs to help with the video, but not everyone needs to be in the video.• Film in landscape, not portrait mode.• Hold the camera steady.• Redo the video multiple times until you're happy with the results.• The video does not need to have titles, captions, credits, special effects, or transitions.

Parent Corner:

1. Have the team practice a few times in front of an audience.
2. Keep the recording in a safe place until students have a chance to submit it for the contest.
