

BE THE STAR THAT YOU ARE

Research Challenge 2020-2021

Are you curious? Do you have questions you want answers to? Did you ever wonder how something was made? Do you have an idea for an invention? Do you just want to know more about something?

THEN THE RESEARCH CHALLENGE IS FOR YOU!

How do I get involved in the Research Challenge?

- ★ Pick a topic or ask a question you would like to investigate further
- ★ Research may be done individually, or by small groups of students working as a research team
- ★ Fill out the entry form
- ★ Turn your entry form into the Library
- ★ Start your research, investigate your question, collect your data and information, and create your research presentation
- ★ Research may be presented in any format you choose such as: audio report, video report, magazine article, written report, research poster (online or print), Google Slides, game, online book or print book, or some other creative presentation media
- ★ Everyone will be required to do a slideshow (via Google Slides). We can help you with that!
- ★ Dress up for your presentation (either in costume related to your topic or just professional)
- ★ Resources:
 - Content Experts: Identify people in the community who are experts in your area of research. Contact them about questions you have.
 - Library and Internet: Use the local and school library. Practice safe searching!
 - Parents & Family: Your parents and family can be excellent sources of information for you. You should talk to them about your topic and get their ideas of where to go for information
 - Faculty: Teachers and Staff can also help you with information and direct you to other sources of information.
- ★ Pay attention to the deadlines and prepare to present your final presentation at the **Research Recital on Thursday, February 25th.**
