**Advanced Learning Lab (A. L. L.) Testing  
Saturdays – January 13<sup>th</sup> – February 3<sup>rd</sup>, 2018**

*Si desea esta carta en español, favor de pedirla en la oficina de su escuela*

The Alpine School District Gifted Services Department will be conducting eight sessions of testing for placement in the district A. L. L. classrooms for the 2018-2019 school year. Any interested 2<sup>nd</sup> - 7<sup>th</sup> grader in ASD is invited to attend a testing session to qualify for placement in an Advanced Learning Lab (A. L. L.). The testing will occur according to the schedule below. All 2<sup>nd</sup>-7<sup>th</sup> graders interested in placement for the next year will **have to test** for original placement in the A.L.L. program. If students are currently in an elementary or secondary A.L.L. program they do not need to retest if they have completed the “intent to continue” form. However, all 6<sup>th</sup> grade students must retest for placement. Testing for secondary A.L.L. is for designated English, history, and science classes. Math testing and placement is completed at individual schools.

Testing for both elementary and secondary A. L. L. programs will be done on Saturdays, January 13<sup>th</sup> to February 3<sup>rd</sup>. Online registration is now open and will close the Tuesday prior to each testing session. There will be a \$20.00 fee for the testing. Students on free or reduced lunch status will register online with a reduced cost. Registering within three days of testing is considered a late registration and will incur an additional \$5.00 fee. Late registrants will be admitted upon availability. There are no refunds.

The following will be the testing dates, type of test taken, locations, and times:

**Advanced Learning Lab (A.L.L.) Programs**  
Important Testing Information  
For Placement in the 2018-2019 School Year

Various programs are necessary to meet the diverse needs of academically advanced students. In order to address some of these needs, Alpine School District has established classes at an advanced level for 3<sup>rd</sup>- 8<sup>th</sup> grade called A.L.L. (Advanced Learning Lab) **A.L.L. programs are located in nine different elementary schools and every junior high/middle school.** (See the website for feeder school magnet site information at [www.alpineschools.org](http://www.alpineschools.org), select Schools then Programs) A.L.L. is a full day program at specific elementary schools, and is a subject specific program at secondary schools. Students are placed according to nationally normed testing results and a written essay.

The purpose of this letter is to inform all parents/ guardians of 2<sup>nd</sup>-7<sup>th</sup> graders about the opportunity to test for possible placement in an A.L.L. program. Qualifying students will be offered placement and invited to meet with the teacher to learn more about specific magnet site offerings. Identified students and their parents/ guardians will then make the final decision to accept or decline placement in the A.L.L. program.

**POSSIBLE INDICATORS TO CONSIDER PRIOR TO HAVING A STUDENT TESTED:**

- The student's Utah State SAGE test scores are a 4 in Language Arts, Math and Science.
- The student is reading two or more grade levels above their current grade.
- The current classroom teacher has suggested during a Parent/Teacher Conference that the student could benefit from a more complex or in-depth curriculum as offered in an A.L.L. program.
- The student learns quickly, recalls information effortlessly, is curious, self-motivated, works independently and typically remains committed to a task until its completion.
- The student exhibits satisfactory to outstanding citizenship in both attitude and behavior.
- The student has good school attendance and is committed to the program for two years.
- The student completes homework in a timely manner and has task commitment for long-term projects.
- The student initiates his/her own learning through questioning and research.

**ADDITIONAL SIGNIFICANT INFORMATION TO CONSIDER:**

- A.L.L. students must qualify for the program through a series of evaluations. Top students are offered placement, and an additional four to six become alternates for placement when there is available space.
- Evaluations for elementary students include taking the full battery Cognitive Abilities Test (CogAT), secondary students taking the IOWA assessment in reading, writing, social studies and science. All students will take a timed writing test based on a given prompt. Please note secondary mathematics is not tested through Gifted Services. Secondary math testing is done at the junior high or middle school.
- A.L.L. students will have assignments/homework that are greater in depth, breadth and complexity than in a regular class.
- For the elementary programs, parents are responsible for transportation to the A.L.L. site. Students attend the school closest to their boundary (see the website for school locations [www.alpineschools.org/gifted-services](http://www.alpineschools.org/gifted-services) )
- For secondary programs, students must register for the their boundary school.

If you feel that your child could benefit from placement in an Advanced Learning Lab (A.L.L.) and you would like to begin the consideration process start by registering them online: Go to [www.alpineschools.org/gifted-services](http://www.alpineschools.org/gifted-services) select Testing Registration and register through Xpress Bill Pay.
