“I am honored to be joining the Alpine School District as the principal of North Point Elementary School. My educational philosophy centers on providing every student with access to a high-quality education that nurtures their unique talents and abilities and teaches them how to think critically, collaboratively, and creatively. In order to work towards this goal, I am committed to fostering a positive and inclusive school culture where all staff, students, and community feel valued, safe, supported, and empowered to reach their fullest potential.

“Over the years, I have served in various educational capacities, including teacher, instructional coach, and now Principal. My experience as a principal in two very diverse schools has deepened my belief in the transformative power of dedicated educators and engaged families in shaping student learning experiences.

“On a personal note, my family and I are thrilled to be returning to Utah, where we have roots and family connections. We look forward to exploring the beautiful outdoor adventures Utah has to offer. My 11-year-old son and I share a passion for building LEGO.

“I am eager to learn from the experiences, insights, and perspectives of those in the community of North Point. By working collaboratively, we can create a dynamic learning environment that promotes academic excellence, character development, and lifelong learning. I am excited for the journey ahead.”
