

OUT OF AREA REQUESTS

Please be patient if you have submitted an out of area request. We are required to prioritize our acceptance of students. We first include students who are in our boundaries and those who are already registered in our DLI program. Next, we prioritize siblings of those students. After we have accurate counts of these students, we look to see if there is room for more students in their respective grade levels. We will most likely give approvals at the end of July. Being accepted in Kindergarten does not guarantee an acceptance in the DLI program--this is done by lottery only. Also--If you have been accepted into the DLI program, you must complete an out-of-area request.
