

## SAGE 2014 - Cedar Ridge Elementary

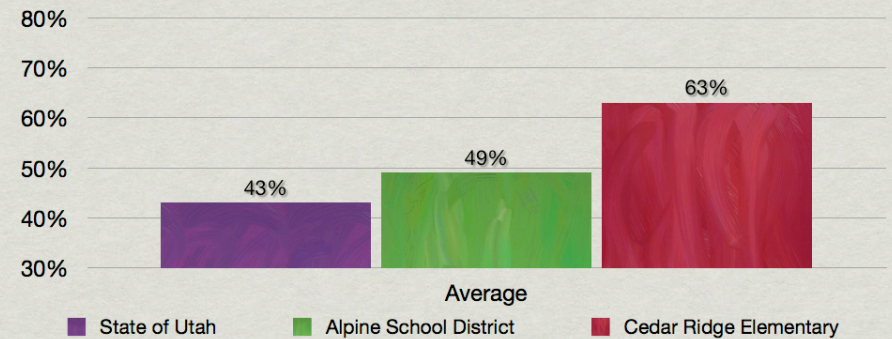

We are pleased to announce our proficiency scores from the Spring 2014 statewide SAGE Assessments.

Since this was a new test on new standards, the main purpose is to establish a benchmark on which to measure future growth. Because comparisons to previous years' scores are not valid, the best way to interpret our scores is to compare how our students did to other schools in our area and across the state.

The students at Cedar Ridge Elementary performed very well compared to other schools. We scored at least 20 points above state average in Language Arts, Math, and Science. Our school was listed as the #26th elementary school in Science in the state by [the Deseret News](#). We know that test scores are only a part of a child's school experience, but we are excited to share that all the hard work of our children, teachers, and parents is reflected in our scores.

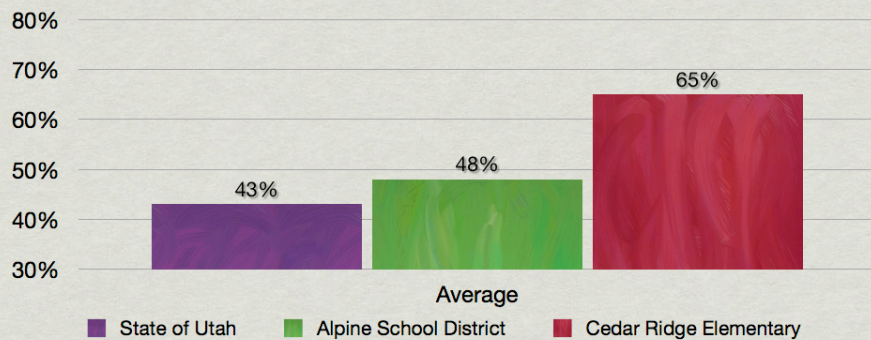

Please see the following pages for a report of how Cedar Ridge compares to local charter schools and a breakdown of school's proficiency by grade level.

### ENGLISH LANGUAGE ARTS PERCENT PROFICIENT

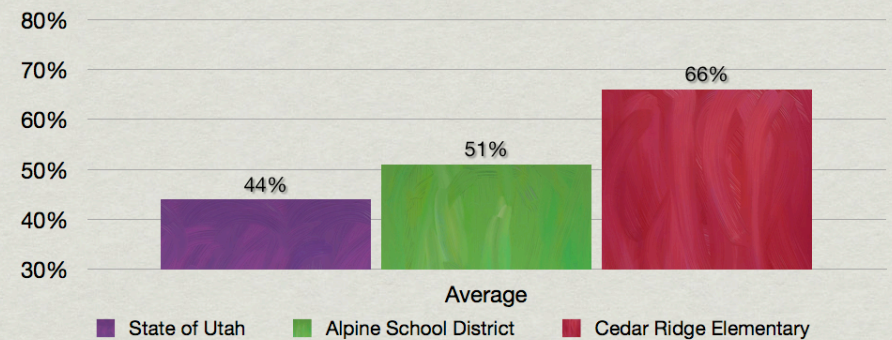

% proficient	Average
Utah	43
ASD	49
Cedar Ridge	63

### MATH PERCENT PROFICIENT

% proficient	Average
Utah	43
ASD	48
Cedar Ridge	65

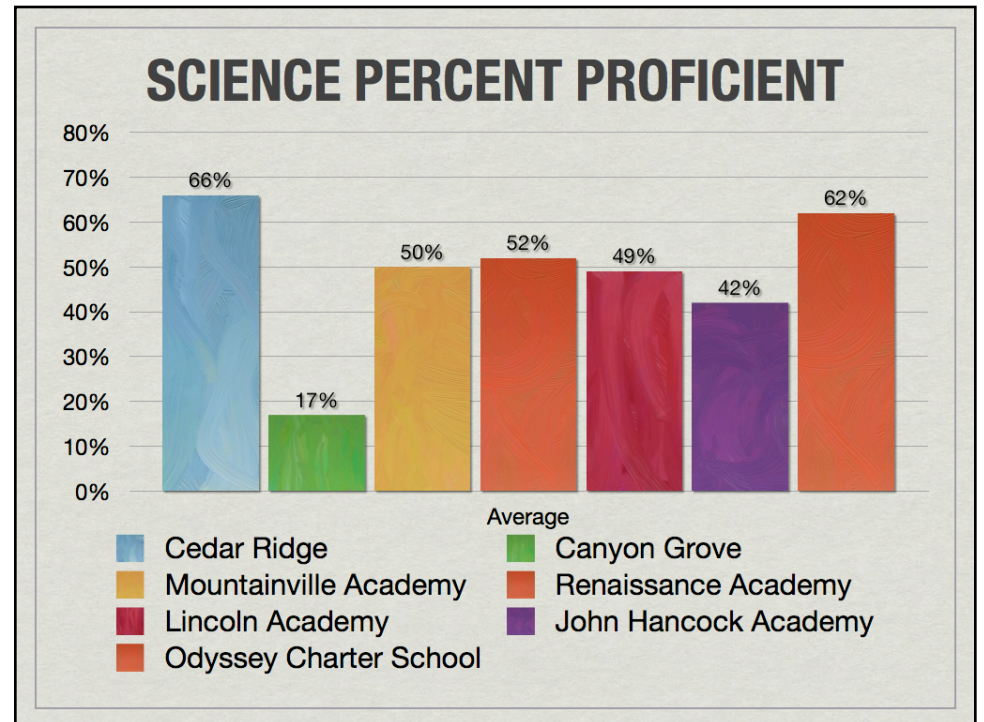

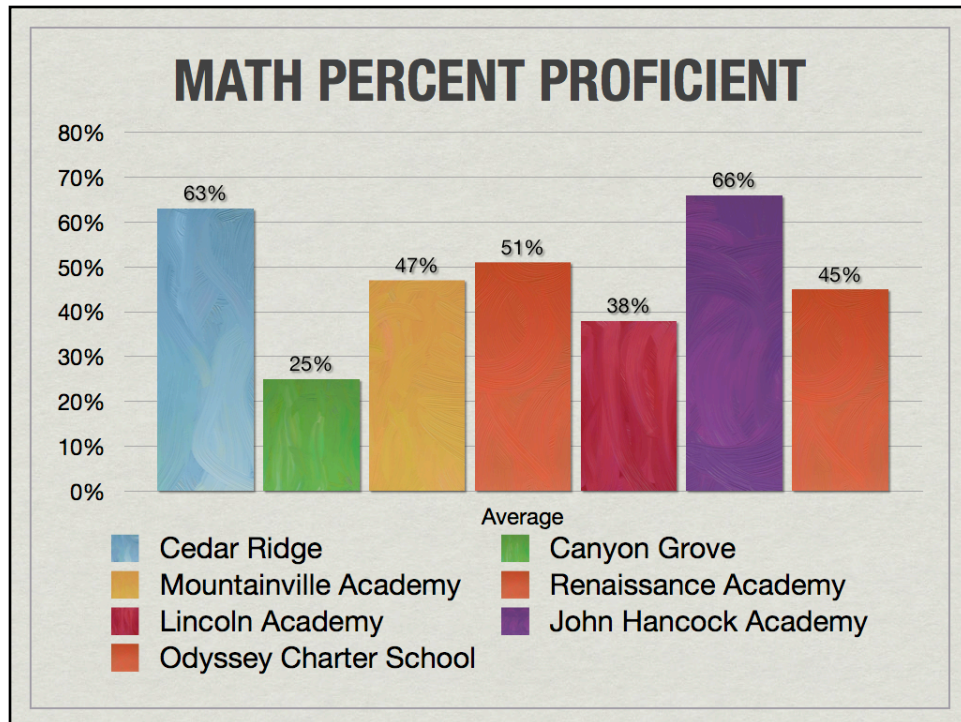

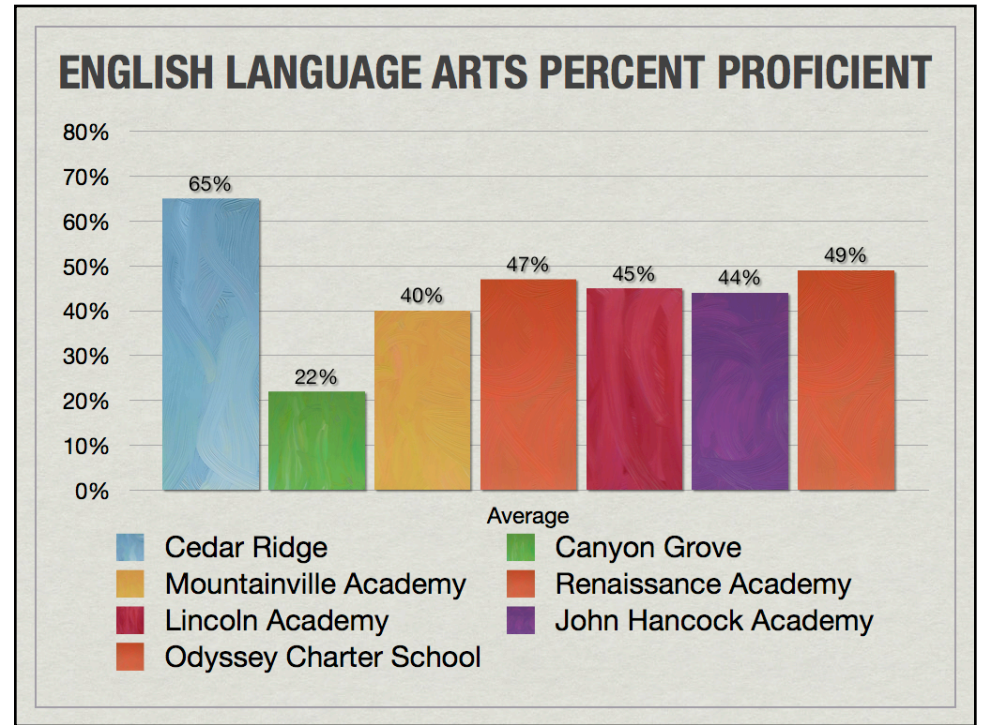

### SCIENCE PERCENT PROFICIENT

% proficient	Average
Utah	44
ASD	51
Cedar Ridge	65

Parents may wonder how Cedar Ridge Elementary compares to local charter schools. The data from these reports were compiled from <https://datagateway.schools.utah.gov/SAGE>.

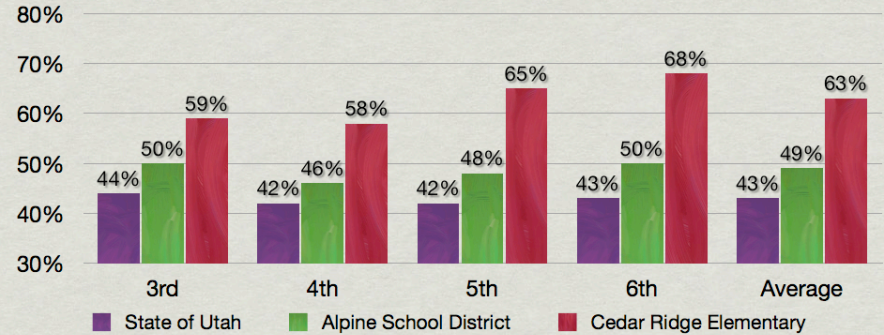

Cedar Ridge Elementary stands out as a school with scores that are consistently high compared to local charter schools.

These graphs show how our individual grade levels did compared to other schools. While our scores are higher than most, we recognize that we still had too many students who did not reach proficiency on the SAGE tests last year. Teachers at Cedar Ridge Elementary School will be working hard to identify areas where better instruction needs to occur.

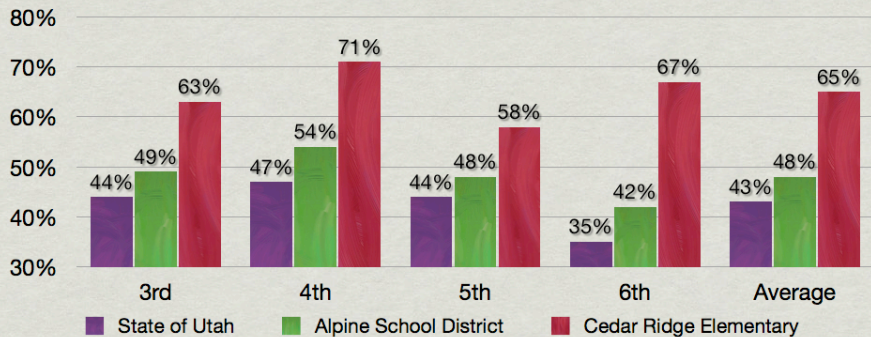

We are committed to continuing to provide a caring learning environment focused on not just academics but character development and citizenship. The culture of Cedar Ridge Elementary is one of continuous improvement and we are confident that our test scores will improve each year with the continued support of our students, parents, and community.
